HDS-990 Software Upgrade Procedure: Firmware version 3.01 ,

The initial version MUST BE VER 1.05 ONWARD.

Step 1: Extract the package for decompression.

Step 2: The extracted FW-PK_FORCE-HDS-990-V202xxxx-xxxx and

fileres.rcc files, Copy to a USB .

(Installation Conditions: If the capacity of the USB is less than 32G, the

USB needs to be formatted to FAT32 format in advance, and ensure that

there are no other files in the USB);

Step 3: Unplug other USB devices on the HDS-990 machine, insert the

UBS with copied upgrade files, and turn on the power and wait patiently;

Step 4: HDS-990 will automatically detect the upgrade file after starting

up and automatically upgrade,

During the upgrade process, the progress will be displayed, and the

upgrade process lasts about 2-3 minutes.

After the upgrade is complete, the machine will automatically restart

without any operation.

Step 5: After the machine restarts, it will enter the normal player interface, you can press and hold the volume button to enter the setting menu> General > Check whether the version information is V3.01

Notes:

1. The upgrade process lasts about 3 minutes, please be sure to keep the HDS-990 powered on;

2. Do not actively or passively disconnect the power supply or operate the HDS-990 before the upgrade is completed.
